	H.	Attach land management and maintenance plans that will ensure protection of the reclaimed area.
III.	PROJECT BENEFITS*	
	A.	What species of fish will benefit from this project?:
	Kokanee Salmon	
	B.	How will the project protect or enhance wild fish habitat?:
	The screen will keep the fish in the lake	

	for fishing instead of flushing thousands of them into the canal to die.	
	C.	Will the project improve fish populations and/or fishing? To what extent?:
	Based on my studies, I would estimate conservatively that between 40 and 50 percent of the fish are exiting into the canal on annual basis.	
	D.	Will the project increase public fishing opportunity for wild fish and, if so, how?:
	Yes, by increasing the number or available fish by 50%	
	E.	If the project requires maintenance, what is your time commitment to this project?:
	I would commit	

	resources to help maintain the screen.	
	F.	What was the cause of habitat degradation in the area of this project and how will the project correct the cause?:
	The cause is the open access to the channel and the propensity of the salmon to migrate when water levels fluctuate.	

	G.	What public benefits will be realized from this project?:
	Saving thousands of dollars in lost fish and providing more fish to improve the chances for anglers to catch them.	
	H.	Will the project interfere with water or property rights of adjacent landowners? (explain):
	No, F,W and Parks manages the fishery.	
	I.	Will the project result in the development of commercial recreational use on the site?: (explain):
	No	
	J.	Is this project associated with the reclamation of past mining activity?:
	No	
Each approved project sponsor must enter into a written agreement with the Department specifying terms and duration of the project.
